

DAY OF NIBBLING ON THE MARKET

Constant Inroad Upon Values
Disconcerting to Holders
of Long Stocks.

WEAK IN CLOSING HOUR

Bear Party Show Great Caution
in Their Operations—Wait
ing Demand.

(By Associated Press)

NEW YORK. June 29.—Stocks came upon the market freely from time to time day in continuance of the liquidating movement recently in progress. The result was a sort of nibbling at prices, which made a constant inroad upon values and was highly disconcerting to holders of long stock. The consequence was a growth in selling pressure until in the final hour the market took on the weak and semi-demoralized tone which characterized the market break. In a few cases prices got back to a lower level than during the decline of the first part of yesterday's session. The bear party showed great caution in their operations and made no such raids on prices as were evidenced earlier in the week. It was evident that a waiting demand existed in the lower levels, and this was manifested in the outstanding shorts, who took the opportunity in this way to realize their profits. There were no important incidents bearing on values in today's news. Money on call was active all day in consequence of calling of loans by the banks in preparation for meeting the July settlement requirements.

The announcement of about \$50,000 gold secured from the Bank of England for import to New York had the effect of confirming the fact that next week's expected large arrival of South African gold in London would be secured for New York. Although the banks have lost over a million dollars to the treasury on the week's operations there has been a sufficient gain on express movement with the interior to indicate an increase in cash of about \$2,000,000. The week's liquidation in stocks is expected to reduce the loan item and make a strong bank return.

The lowest prices of the day were touched in last hour and the market closed weak and near the lowest of material losses throughout.

Bonds were heavy. Total sales, par value, \$1,700,000.

United States 28 coupon declined 18 per cent. on call. Total sales stocks were 200,000 shares.

NEW YORK. June 29.—Money on call strong and higher, 4-1/2 to 4-1/4 per cent.; ruling 4-1/2; closing bid 4-1/2; offered 5-1/2. Time loans very dull and steady; forty days 4-1/2 per cent.; ninety days 4-1/4; six months to 5-1/4. Sterling exchange weaker after advance at \$4,540.60 for demand, and at \$4,510.00 for sixty days. Posted rates, 4-1/2 to 2-1/2. Bonds 4-1/2 to 4-1/4. Commercial bills 4-1/2 to 3-1/2. Bar silver, 65-1/2 Mexican dollars, 50-5-1/2.
